Angela and Monica: please see attached Summary for TF Vector Control (Harvey) activities, September 9, 2017 (9:00 PM CDT). DoD Aerial assets are on the ground in San Antonio and still plan to spray 3-counties tonight; Clarke completed spray operations last night, and are scheduled for two more county areas tonight; 171 barrels of Dibrom (Naled) were delivered at noon today. FEMA, TX DSHS, and USDA are meeting on a blanket statement for the Organic Farmer issue so that county judges will allow spray operations. TX DSHS has established an additional contract for aerial spray operations due to the increased number of counties requesting support.
